This Program is aimed for children and teenagers who are looking to learn their times tables for school test/exams or simply revise them over to improve their mental maths. The user gets asked their name and then the times table they want which will be listed from 1-12. The user can ask multiple tables until they input "No" to the question "Do you want to enter another number?" if the user types in "No" the program will automatically close.

NOTE: The times table can only be a whole number.
